Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated that there were problems with the 11/26/04 RSL. Some of the sequences did not match (number of residues in the peptide or source of peptide) the originally filed RSL. Also some sequences in specification do not have sequence identifiers. Applicants to provide new RSL. All of the claims recite peptide sequences. The Examiner indicated that prosecution of this application cannot go forward until the RSL problems have been resolved..
